

51 years of Service

George McWhirter
Treasurer
Brantford Traffic Club

Written by
Jennifer Bawden

An original founder of the Brantford Traffic Club in 1956, George has been working with receivables and payables ever since.

Born and raised in Brantford, Ontario, George started his involvement with transportation with Massey Ferguson in the Traffic Office.

Also known as Mr. Brantford Traffic Club to some, George has seen many changes

over the years. Technology being one of those changes. Computers being a fundamental part of our days, personally and professionally. Not George. He still uses the old fashion method of pencil and paper. All Mr. McWhirter's records have been kept by hand for the last 51 years.

If someone needs to know where that fifty seven cents went in 1983, George would be able to tell you. If someone wanted to know who the president was in 1972, George would know. Quick as a whip, and some what of an archivist, Georges retirement will create quite the void on the executive.

A George McWhirter Bursary has been formed in George's honour. The goal of the bursary is to foster and promote Transportation

globally, while aiding the Brantford community with special fund raising directed towards the Nova Vita Women's Shelter, and W. Ross MacDonald School for the visually impaired.

An appreciation night is being planned for George McWhirter on May 7th, 2007. The Executive of the Brantford Traffic Club would like all past and present members to come out and honour George.

A very special thank you, to a very special man;

George McWhirter.
